Big Facts

Verified Authentic

[Download Full Report Here](#)

Just over 35 million products have gone through StockX's authentication process, and the team has grown to include more than 300 authenticators around the world. This report highlights the core components of StockX's rigorous authentication process and the company's global network of authentication centers. Even more granular, the report identifies quality control metrics including the top reasons products are rejected during the authentication process and the most common fake products caught by StockX authenticators.

Big Facts

Verified Authentic

Just over 35 million products have gone through StockX's authentication process, and the team has grown to include more than 300 authenticators around the world. This report highlights the core components of StockX's rigorous authentication process and the company's global network of authentication centers. Even more granular, the report identifies quality control metrics including the top reasons products are rejected during the authentication process and the most common fake products caught by StockX authenticators.

Global Network Growth

StockX's investment in authentication has increased every year since 2016. Today, the StockX team comprises more than **300** authenticators across four continents, but they aren't the only experts on the frontlines. Nearly **200** additional team members, from knowledge managers to quality assurance specialists, support this critical function.

Quality Control

Authentication is about more than just stopping fakes. Over the last 12 months, the presence of manufacturing defects was the top reason products were rejected during StockX's authentication process.

In the last 12 months alone, StockX protected customers by rejecting more than **300,000** products worth more than **\$100M** in value.

Reasons Products are Rejected by StockX: (Last 12 Months)

Damaged Box

If a seller's product is rejected, StockX aims to connect the buyer with a new seller immediately.

*The last 12 months: June 1, 2021, to May 31, 2022.

**Damaged Box: In certain situations, StockX provides buyers with the opportunity to accept a product with a slightly damaged box.

StockX Authentication: By the Numbers

*The last 12 months: June 1, 2021, to May 31, 2022.

The Winning Formula

StockX's authentication process combines human identification, expert knowledge, and cutting-edge AI technology.

Human Expertise

Expansive Database

Technology

Touch and smell can be critical components when determining authenticity

StockX's proprietary database includes billions of brand and product-specific data points

Use of AI helps ensure the most minor details are taken into consideration
